

SIDER

SIDERSHIELD

OXYDRO

Description

SiderShield is a protective, non-stick barrier for tools and all types of machinery.

Use

SiderShield acts as a protective shield for tools and machinery exposed to dirt, cement or all other contaminants or pollutants on job sites. SiderShield bonds with paint, metal or glass, creating the ultimate barrier against contaminated water and surface damaging elements. SiderShield creates a barrier against water penetration on drive chains, cables and gears. Apply as needed or on a preventative monthly basis.

Specifications

Appearance	Liquid form
Density	.87

Application Instructions

Apply directly to the surface using a brush, a rag or a pump sprayer. Apply as needed in one thin coat. SiderShield can be applied in the rain using a brush or a rag.

Coverage

1 quart (1 liter) per 150 f² (15m²).

Packaging

5 gallons (18.9 liters) container.

Storage and Shelf Life

Shelter in a dry environment from direct sunlight and freezing. Shelf life is one year in original sealed packaging.

Sider-Oxydro products are specifically formulated and designed to meet and exceed industry standards. Please refer to technical data sheets for specific installation instructions or contact Sider-Oxydro for application questions.
