

Direct Applied Finishes

Control Joint

Product #	Ground Inches	Pieces/Box
PLO93	1/8"	60
10' Lengths		

● Application:

Flexible PVC control joint designed specifically for DEFS systems. Perforated flanges are placed on top of separated sheets of sheathing with "V" placed in separated channel. May be used in vertical or horizontal application. Has removable tape that protects "V" groove during application; also provides a 1/2" reveal. Built in stops assure proper thickness of base and finish.

● Specification:

Control Joint shall be Plastic Components, Inc. # PLO93. All exterior accessories shall conform to ASTM standards D1784-92 and C1063-94. They shall be used where specified by the architect and installed per industry standards and manufacturer's instructions.

Caulk all butt joints, intersections and ends.

It is recommended that PVC products be used for all exterior exposures.
